

Mathal: Journal of Islamic and Middle Eastern Multidisciplinary Studies (IMEMS)

<http://ir.uiowa.edu/mathal>

ISSN: 2168-538X

Mathal is a journal of Islamic and Middle Eastern Multidisciplinary Studies. It is an Open Access, double-blind peer-reviewed international journal published by Iowa Research Online, University of Iowa, USA. Current acceptance rate is 5.7. The main objective of Mathal is to provide an intellectual platform for scholars of Islamic thought and Islamic societies throughout history and throughout the world to share their ideas with the widest audience and in the shortest time possible. Mathal aims to promote critical multidisciplinary studies in humanities and social sciences and to become a repository of knowledge on the Islamic civilization and the Middle East.

The journal publishes research papers in the humanities (arts, history, literature, philosophy...), social sciences (sociology, economics, political science...), natural sciences (biology, physics, astronomy, chemistry...), abstract sciences (mathematics, computational sciences...), and practiced sciences (law, medicine, engineering). Scholars from the aforementioned disciplines with research and teaching interests in area studies, Islamic studies, and Judaic studies are especially welcome to submit their works. Mathal publishes original papers, review papers, case studies, empirical research, technical notes, and book reviews.

Since one of the journal's primary goals is the dissemination of knowledge and scholarly inquiries, authors retain exclusive rights to their work, allowing them to republish their work on their personal websites or with other journals.

Because Mathal is an online Open Access journal, accepted articles are published as soon as the peer-review and revision processes conclude. Mathal does not limit the length of articles or the size of digital files at this time.

In Mathal, authors may publish articles in most languages including English, Arabic, Hebrew, French, Persian, Spanish, Turkish, and Urdu.

For more information and/or to submit your work, please visit the following websites:
