

## **CAARI announces a special 40th anniversary internship-fellowship**

As part of the celebrations for our 40th anniversary in 2018, CAARI is pleased to announce that the US Embassy in Cyprus are generously supporting us with an internship-fellowship for a postgraduate student or unwaged postdoctoral scholar. Applicants must be US citizens or students/research fellows affiliated with a US college or university and committed to spending 30 days resident at CAARI.

The award includes up to \$800 towards travel, a month's accommodation at CAARI and a stipend of \$1160 for working two days a week over one month assisting us in compiling and transcribing interviews for an oral history of CAARI. The fellow is free to conduct their own research during the remainder of their time in Cyprus.

Please download the application form and further instructions here:

<http://caari.org/fellowships/>

Applications are strongly encouraged from individuals who would value time spent at CAARI in order to complete dissertation research or to work on publications. Interviewing and transcription skills, as well as spoken and written Greek, are desirable but not essential to be considered for the award. Individuals who have already applied for the recent round of 2018-19 fellowships and are awaiting the outcome are also welcome to apply.

**Deadline: 15 February 2018**
