

## ARISC Collaborative Heritage Management Grant in the Republic of Armenia

**Date Due: March 16, 2018**

ARISC invites proposals from collaborative teams in support of the preservation and conservation of the Republic of Armenia's archaeological and historical heritage. This ARISC program, generously funded by Project Discovery! and donors, seeks to foster joint work between American and Armenian scholars and institutions dedicated to the proper curation and preservation of heritage materials such as artifacts, sites, and manuscripts. These grants require active participation of both American and Armenian principal investigators in all aspects of the collaborative project. Grants will typically not exceed \$4000.
